

IGNITION COILS

NGK ignition coils, like its spark plugs, are manufactured with custom a NGK ASIC chipset, dielectric grease and high quality epoxy for optimal performance and easy installation. With over 450 part numbers, NGK ignition coils provide over 95% vehicles in operation coverage in the USA. These coils also undergo extreme testing conditions in an ISO 17025 certified test lab to ensure they meet the highest performance and durability.

SIX DESIGN FAMILIES

COIL-ON-PLUG
or PENCIL COIL

COIL-ON-PLUG with
WASTE SPARK DESIGN

RAIL COIL
